

Dating Game Script

(use gadgets from the Tiny Treasure collection)

(Start with **WHY** you are playing the game)

This is my Dating Game! This is the game that I play at the end of every party to keep my promise to my Host to do everything I can to help her qualify for all of the Tupperware her heart desires! This is a game of chance and a game of choice. So if you're already thinking about hosting a party you'll want to be the first to play my game. There's nothing tricky about my game, it's simply a fun way for me to give you extra incentives to help our host tonight and in turn, help yourself too!

(Explain **HOW** the game works)

How it works is, half the gadgets say "Free Gift & A Party with Me!" that means you get ME and I get to spoil you rotten at your party! The other half, say "Free Gift". Either way, your gift is the gadget that you choose, so be sure to choose the one you really want!

(Give them a **BRIBE**)

Now, because I know that most women love to be bribed! Anyone who says YES to having a party to help our host earn free Tupperware, RIGHT NOW, will get an extra gift of \$75 to start your party!!! Who will volunteer to help my host right now? (and I raise my hand).

Regardless of what happens, whether you get immediate datings or not, you will want to tell everyone that you are going to pass the game around the room and anyone that wants to take a chance can do so, and anyone who never wants to see you again can pass. 😊
